

RETRIEVER RESCUE

Labradors and golden retrievers are trusted companions to hunters in the woods, playmates to children in the garden, and friends to those who embrace them with their love. They are mild tempered, obedient, eager to learn, easy to deal with, and beautiful.

For many of us it's incomprehensible that there are still people who do not value these extraordinary dogs. Many are put out onto the streets, beaten and abused, used as 'puppy factories', and kept under terrible circumstances.

About 4 years ago a group of us started the Retriever Rescue Association to help these mistreated dogs and give them a chance at a better life. Since then we have been working every day to find, save, rehabilitate and ensure that they find a home with someone who deserves to be called their owner.

The dogs we rescue are placed with temporary owners, where they receive medical care, love and attention which they need and deserve. They can finally experience a warm and safe home, are given a well balanced diet, and start to enjoy true companionship. They are cleaned, deloused, vaccinated, neutered and made ready to move to a new permanent home. It is very important for us to select final homes for these dogs which offer not just a temporary relief, but a lifelong relationship.

Since there are more and more dogs to be rescued every year we need constant growth with all sorts of supply. There are 3-400 dogs in the need every year and our association can help approx 100 only. In order to ensure that we can carry on and save more battered dogs in the future, we need your help! We are in need of both financial and in-kind donations. We are happy to receive dog toys, food or volunteer work which help us to fill the world with more and more happy, tail wagging retrievers.

Please support our work!
